

HARDIPLANK® LAP SIDING

Hardiplank® lap siding is used on millions of homes across America. It enhances and protects houses in all kinds of climates and comes in a variety of looks and textures. All siding includes PrimePlus®, sealer and primer for an excellent painting surface that resists fungus and mildew. Hardiplank lap siding has a 50-year transferable limited warranty.

HARDISHINGLE® SIDING

Hardishingle® siding offers the look of cedar shingles, yet it doesn't rot, crack or split. It can be used as a primary siding or to complement other styles of James Hardie® siding. A selection of decorative edges and a variety of widths provides an authentic, handcrafted look. Hardishingle siding has a 30-year transferable limited warranty.

HARDIPANEL® VERTICAL SIDING

Hardipanel vertical siding is equal to James Hardie lap siding in value and in long-lasting performance. Its structural strength means Hardipanel siding can be used as a shear panel or combined with Harditrim® planks to achieve a board-and-batten look. It has a 50-year transferable limited warranty.

HARDITRIM® PLANKS

Harditrim® planks are a fiber cement trim which adds the finishing touch to a James Hardie siding exterior. They provide durability in corners, columns, windows, rakes and friezes. The proprietary process for fiber cement trim provides an excellent surface for paint and comes with a 10-year transferable limited warranty.

HARDISOFFIT® PANELS

James Hardie pre-cut soffit panels eliminate the need for separate box or strip vents and minimize the need for cutting. Hardisoffit® panels can be vented or non-vented and are available in a range of pre-cut sizes. Resistant to fungus and mildew, even in damp climates, Hardisoffit panels come with a 25-year transferable limited warranty.

COLORPLUS® TECHNOLOGY

Thanks to James Hardie's ColorPlus® technology, it's possible to get a low-maintenance, prefinished siding that is backed by a 15-year finish warranty. There are 12 popular colors to choose, including Monterey Taupe, Heathered Moss, Woodland Cream and Boothbay Blue.

HARDIBACKER® CEMENT BOARD

Hardibacker® cement board with MOLDBLOCK™ Protection provides the ultimate in moisture and mold resistance, passing both industry standard mold tests with a perfect score. Hardibacker for walls and floors lays the foundation for beautiful, long-lasting applications in any room – with or without tile. Combining exceptional durability with clean edges and a smooth surface, Hardibacker can be painted, textured or wallpapered to fit a wide range of décor, styles and choices.

James Hardie products are available in a wide variety of textures, profiles and colors. Visit www.jameshardie.com for additional information on availability, installation, warnings and warranties.
