Finishing Technology
ColorPlus® Technology

Our advanced ColorPlus Technology finishes deliver the ultimate in aesthetics and performance to your job site. Our products aren’t simply painted at the factory. Multiple coats of color are baked onto the board, creating a vibrant, consistent finish for years of lasting character, adhesion and fade resistance.

GIVES HOMES A BEAUTIFUL, CONSISTENT COATING THAT PERFORMS BETTER, LASTS LONGER AND LOOKS BRIGHTER

Superior finish adhesion
Multiple proprietary coatings are engineered for superior adhesion to our substrate and applied to all surfaces, edges and features for durable performance.

Superior color retention
Finish is cured onto boards after each coating step for a stronger bond, which allows for exceptional resistance to cracking, peeling and chipping.

Superior UV resistance
Multi-coat, baked-on finish retains its vibrancy longer when compared to vinyl siding and paint on other siding products in all UV conditions.

For timeless beauty
BEGIN WITH THE FINISH.
Top to bottom, our exterior product line is defined by excellent performance, aesthetics and design options.
