A. Hardie® Smooth Sand Panel | Main Cladding

Instantly improve the curb appeal of your home with Hardie® Textured Panels, a beautiful new way to define your style.

With their sleek V-groove aesthetic and architectural lines, Hardie® Textured Panels offer homes a sophisticated, contemporary look that can beautifully complement styles ranging from more traditional to ultramodern.

Available primed and ready for paint in multiple textures, panels can be used around your entire home, in combination with other fiber cement products by James Hardie, or as an accent.

Whether you're building your dream home or transforming your current home, Hardie® Textured Panels can help create a style that is uniquely yours.

Trusted protection for years to come.

Hardie® Textured Panels deliver more than contemporary beauty. They help protect the things you love from pests, water and fire.

Our fiber cement panels are Engineered for Climate® to stand up to the elements in your region. Even after years of tough weather conditions, they resist the effects of wind, moisture and extreme temperatures.

While providing unrelenting protection, Hardie® Textured Panels are low maintenance, offering lasting beauty for your home.

As long as you live in your home, you'll have peace of mind knowing it is protected with trusted products from the #1 brand of siding in North America.
